

## **MV Transportation, Inc. wins new business in the City of Phoenix**

**July 7, 2008 (Phoenix, Arizona)** -- MV has been awarded a unique contract to manage Transportation Projects for the City of Phoenix.

The Progressive Transportation Projects contract consists of four programs designed to provide alternative transportation options for the City's senior and disabled communities – separate from the fixed route and paratransit services currently provided through the City.

MV's longstanding presence in the Phoenix community – as the City's paratransit provider for the past seven years 2001 – offered a blend of local knowledge and transportation expertise that has proven highly beneficial.

Of the five participating bidders, MV scored the highest number of points in the evaluation process. On July 2, the Phoenix City Council approved the award of a \$1.4 million, three year contract (with two additional, one-year options).

MV will work with the City to analyze current programs and develop new services for City residents, including taxi subsidy programs for those dependent on transportation to life sustaining medical facilities or to employment transportation programs.

West Group President, Kevin A. Klika, was extremely pleased to learn of this award. "Our ongoing relationship with the Phoenix community is very important to our organization. I am thrilled that this contract offers us another way to work with the City in finding new solutions for transit dependent individuals."

Based in Fairfield, California, MV is the largest private provider of paratransit services and the largest privately-owned transportation contracting firm in the U.S. The company employs more than 11,500 dedicated transit professionals and operates more than 180 paratransit, fixed-route, shuttle and Medicaid contracts in 24 states and British Columbia, Canada.
