

FOR IMMEDIATE RELEASE:

MV Transportation, Inc. retains Fairfield-Suisun Transit contract

(Fairfield, CA – May 27, 2008) MV Transportation is pleased to announce it has successfully retained the Fairfield-Suisun Transit contract in Fairfield, California. MV has operated its hometown fixed-route and paratransit service since 1998.

Not only was MV strongly recommended by City Staff, but the City Council voted unanimously to award the new \$28.2 million contract to MV. As a result, MV will continue to provide transit services to nearly a million transit riders for another six years.

“Awarding the contract to MV was a definite win for the City,” said Fairfield Vice-Mayor and Councilman John Mraz. “MV gives timely and quality service at a very good price, so the choice was simple.”

For the new contract, MV will implement new technology that will certainly enhance the system and the transit experience for riders, making Fairfield a model of passenger-oriented service. Riders will soon enjoy the conveniences of text/email route alerts, electronic information kiosks at major transfer points, real time GPS tracking for all transit services and automated call services for next day trips.

“We are extremely pleased that the City of Fairfield has once again chosen MV to continue as its provider of choice,” said Kevin Klika, President of MV’s West Coast Operations. “We have built a very strong and mutually beneficial relationship with the City and our riders, and we look forward to continuing this great partnership.”

According to staff recommendation, MV’s proposal was far superior compared to the proposal submitted by another bidder. “MV demonstrated a clear understanding of the requirements in the RFP and a willingness to fulfill those requirements at a competitive cost,” the staff report said.

Based in Fairfield, California, MV is the largest private provider of paratransit services and the largest privately-owned transportation contracting firm in the United States. The company employs more than 11,000 dedicated transit professionals and operates more than 180 paratransit, fixed-route, shuttle and Medicaid contracts in 24 states.
