MV Transportation successfully retains City of Fremont paratransit contract

MV Transportation, Inc. is proud to announce the City of Fremont, California has selected the company to remain its paratransit service provider.

MV has partnered with the City of Fremont since 2003 to provide paratransit services throughout the community. The new contract is for two years with three option years and has an annual value of nearly \$400,000. The City's Proposal Review Committee was very impressed with MV's overall performance and rated MV's proposal the highest in overall scoring during the review process.

Since beginning the initial contract in 2003, MV has passed all California Highway Patrol audits since and for the past three years, has achieved a 0.00% NTD Accident Frequency Rating. MV's Fremont location proudly boasts one of the best safety records in our company, and surpasses the industry NTD Accident Frequency average of 0.55%. Also, MV has successfully increased ridership, while simultaneously reducing service miles over the past two years. Productivity has remained well above the City's standard for the past three fiscal years, and farebox recovery has increased 14% in the past three years.

"Our Fremont location has been a model for how to get the job done efficiently," said Kevin Klika, MV's Chief Operating Officer. "We look forward to continued success in this community."

Based in Fairfield, California, MV is the largest private provider of paratransit services and the largest privately-owned transportation contracting firm in the United States. The company employs more than 12,000 dedicated transit professionals and operates more than 190 paratransit, fixed-route, shuttle and Medicaid contracts in 24 states Washington, DC and Vancouver, British Columbia.
