

FOR IMMEDIATE RELEASE:

MV Transportation, Inc. selected to operate City of Santa Monica Dial-A-Ride Services

Santa Monica, California (March 27, 2008) --- MV Transportation is pleased to announce the company has been awarded a three-years contract to operate the Dial-A-Ride services for the City of Santa Monica.

Valued at approximately \$700,000 annually, this operation is a demand response service for the elderly and disabled in the Santa Monica area, utilizing 7 vehicles and 10 operators. MV will provide turn-key operation for this project on April 1, 2008.

“Our experience, price, interview, and current client references were the reasons MV was chosen over a 14-year incumbent,” said Kevin Klika, MV’s President of West Coast Operations. “We are excited about this award and look forward to service the riders and the community.”

With less than a week to transition the services from the incumbent, Transportation Concepts, MV has a team of experienced professionals already in Santa Monica to ensure a smooth transition. Mr. Carl Ball, the project’s new General Manager, is a former Operations Manager who served several MV locations in Southern California.

“This is a great example of MV’s commitment to grow and promote our hard working and dedicated team members from within,” Klika said.

Based in Fairfield, California, MV operates more than 180 transit contracts in 24 states, several of which are located throughout California. Locally, MV operates buses services in Fairfield, Vallejo, Pinole, Elk Grove, Livermore and San Mateo County. MV employees more than 11,000 transit professional nationwide and operated nearly 7,000 vehicles.
