

Beth Prunier Named MV Transportation's Chief Sales Officer for Shuttle, School Bus and Events markets

Immediate Release

DALLAS (January 25, 2016) – MV Transportation, Inc. is pleased to announce that Beth Prunier has been named Chief Sales Officer, Shuttle (Corporate, Airport and College Campus), School Bus and Events.

While Beth is new to the transportation industry, she is not new to sales. Her 20+ years career in sales spans senior sales roles at Career Builder, Intercall and Simply Hired. With a track record of developing clients solutions that are not just fit for purpose, but that also deliver results, Beth is leading a new team at MV that will focus on markets that require highly customized solutions.

Beth will also be responsible for expanding [MV's Patriot Express](#) military veterans' transportation service. Patriot Express is the nation's first scalable veterans serving veterans initiative, and provides veterans with employment opportunities to drive fellow veterans to and from government-funded medical services.

"We've introduced specialization in these markets at MV because we believe that we can more effectively serve our clients as specialists not generalists," said Brian Kibby, MV's Chief Executive Officer. "Beth's extensive sales experience and focus will bring MV's unique capabilities and technologies to many more clients looking for next generation transportation solutions in these markets where MV already has a strong footprint."

"I am very excited to be a part of the MV Team and am looking forward to leading our efforts in these markets," Beth said. "I am equally thrilled to be working alongside a team of professionals who are committed to continuously evolving our services to meet our client and customer needs."

Beth is joined by Gary Coles who has been appointed to the role of Chief Sales Officer, Paratransit & Fixed Route. As colleagues, Beth and Gary will partner closely to ensure that their clients get the benefit of the sum of MV Transportation's 40 years of deep expertise in providing freedom of mobility with heart and innovation.
